STOCK MARKET IS DULL BUT STEADY.

Coal Strike Affects the Trading Unfavorably, But Prices Are Fairly Well Maintained.—The Quotations.

Extreme dullness prevailed at the opening of the stock market this morning. The uncertainty in the labor situation in the anthracite coal regions had its effect on the market, the speculative interests holding off, leaving the dealings almost wholly to the professionals.

While the trading was dull, the general tone of the market was firm. Prices at the opening were fractionally above last night's closing figures.

Kansas City Southern was the most active of the list, the common opening up 1-8 at 31-3/8 and going to 32-1/2. The preferred opened at yesterday's close of 60-5/8, gaining 1 point later.

The coalers and the Pacifics were quiet but firm, showing fractional gains in the first prices.

The market was extremely dull and without movement during the afternoon.

The general firmness, however, continued. A number of the stocks, notably Chicago & Alton and Kansas City Southern, showing very good strength.

The closing was inactive though firm. The total sales of stocks were \$2,000,000, and of bonds \$2,000,000.

The Closing Quotations.
